

## **Wedding Price List 2022**

I work with a wide range of people from those who never wear makeup to those who wear a full face of makeup. So I can tailor to every look to suit from natural to full glam. When booking your wedding date I will keep the full morning/afternoon until the time of your wedding available for you and stay until everyone is dressed to apply veil, if wearing one, and do any make up top ups needed. If your wedding party is more than 3 people for both hair and make up (depending on ceremony time) I can arrange for others in my team to help on the day. In this case the prices below will remain the same except travel and parking which would be charged per person attending.
