

## **Congratulations on your engagement!**

Wedding planning is such an exciting (and busy) time. I like to make the hair and /or makeup part of the wedding as stress free as possible. I absolutely love working with brides on their special day, which is why I have worked in the industry for so many years.

You can book for just hair or makeup or both. If you have a larger wedding party, I have other stylists in my team to assist in the day. I will recommend if I feel a second stylist will be required to fit in with your timings.

### **On the day big day**

When booking your wedding I will provide you with an idea of timings when each person will be getting hair/makeup done. I will arrive at your venue or home early to set up kit and lighting needed. I like to have everyone in the wedding party ready around 45 minutes -1 hour before you are due to walk down the aisle. This gives time for everyone to get dressed, get photos taken and enjoy a glass of bubbles before the day begins. This will also be the time I will apply veil, any fascinators and do any hair/makeup top ups needed. I will also be there to help with any jewellery, shoes, dresses (having so much experience of these things over the years!)

### **Trials**

I usually suggest trials around 1-3 months before the day. However, if you prefer earlier than this it is not a problem. Trials are usually carried out Monday-Fridays, due to having wedding bookings most Saturdays. They can be carried out at location of your choice (travel charges may apply) or at the studio in Uddingston. It is completely your choice who will be having trials, some wedding parties just decide to have bridal trial, others like to have bridesmaids, mother of the bride/groom trials. Also, a trial is not compulsory, if you prefer to wait until the day, you can send picture of styles you like before the day.
